14 July 1952

MEMORANDUM FOR: Colonel L. K. White

25X1A

1. This is a request from Colonel Baird for payment under [REDACTED] for work done and expenses incurred by three prospective consultants who were to be used in a special summer training program. The arguments are set forth that inasmuch as the program was to start immediately after their entrance on duty as consultants, the individuals necessarily had to do a good deal of preparation before any contractual commitments were undertaken. It is argued further that the academic world being what it is, the individuals in all probability, and one individual claims in fact, gave up other employment in anticipation of working for us. Training argues that inequitable handling of these individuals would hurt the Agency.

25X1A

2. I have not referred this to Houston, because we know what his answer would necessarily have to be. I discussed this with [REDACTED] Friday and told him that as far as I was considered my only proposal would be that through Procurement we purchase the materials which were prepared in anticipation of this program.

25X1A

3. I am afraid I cannot contribute any more but must await your personal review on this one.
